

CONGRESSMAN JOHN BARROW'S

Grants Assistance Information Newsletter

GEORGIA'S 12TH DISTRICT

January 2012

Funding News About Congressional District 12

Barrow's Request for Increased LIHEAP Funding for Georgians Included in Appropriations Conference Report

Congressman John Barrow (GA-12) announced in late December that the conference report on H. R. 2055, the omnibus appropriations bill, included increased funding for Low Income Home Energy Assistance Program (LIHEAP).

In early December, Congressman Barrow led a letter, signed by a diverse group of lawmakers from around the country, asking that new funds be appropriated and distributed equitably across the county.

"I'm happy to see that more folks in Georgia will get help with their heating and cooling through LIHEAP," said Barrow. "The additional money for Georgia families will save lives this winter and in the upcoming summer."

Funding for LIHEAP is distributed through a formula that considers both heating and cooling assistance. The changes to the funding formula made in this legislation increase the amount of money Georgians will receive by over \$40 million more than the President's request earlier this year.

FY 2012 - 2013 Broad Agency Announcement (BAA) Grant

Document Type:	Grants Notice
Funding Opportunity Number:	NOAA-NFA-NFAPO-2012-2003133
Opportunity Category:	Discretionary
Posted Date:	Dec 01, 2011
Creation Date:	Dec 01, 2011
Original Closing Date for Applications:	Sep 30, 2013
Current Closing Date for Applications:	Sep 30, 2013
Archive Date:	Oct 30, 2013
Funding Instrument Type:	Cooperative Agreement Grant
Category of Funding Activity:	Environment Natural Resources Science and Technology and other Research and Development
Category Explanation:	
Expected Number of Awards:	
Estimated Total Program Funding:	
Award Ceiling:	
Award Floor:	
CFDA Number(s):	11.469 -- Congressionally Identified Awards and Projects
Cost Sharing or Matching Requirement:	No

Eligible Applicants

Others (see text field entitled "Additional Information on Eligibility" for clarification)

Additional Information on Eligibility:

Eligible applicants may be institutions of higher education, nonprofits, commercial organizations, international or foreign organizations or governments, individuals, state, local and Indian tribal governments. Eligibility also depends on the statutory authority that permits NOAA to fund the proposed activity. Refer to the CFDA in order to determine an applicant's eligibility. If the applicant is a university that has a NOAA Joint or Cooperative Institute (CI), the institution is encouraged to submit an application that will be associated with the CI. The application must specify the name of the CI, its most recent award number, and the NOAA-approved research theme applicable to the work to be performed in the project narrative. The application will use the facilities and administrative rate (F&A or Indirect cost rate) associated with most recent CI award. If the application is selected for funding, NOAA will notify the university that a separate competitive award will be issued with its own award number. However, the competitive award will include a Special Award Condition (SAC) that evidences the link between it and the CI award. The SAC will provide (1) that the university has submitted the proposal to be associated with the CI; (2) that any existing University/NOAA MOA will be incorporated by reference into the terms of the competitive award, and (3) that any progress report(s) for the competitive award must follow the timetable of and be submitted by the CI directly to the funding program. Copies of these progress reports will be attached to the CI's performance report as an appendix.

Agency Name

Department of Commerce

Description

The purpose of this notice is to request applications for special projects and programs associated with NOAA's strategic plan and mission goals, as well as to provide the general public with information and guidelines on how NOAA will select proposals and administer discretionary Federal assistance under this Broad Agency Announcement (BAA). This BAA is a mechanism to encourage research, education and outreach, innovative projects, or sponsorships that are not addressed through our competitive discretionary programs. It is not a mechanism for awarding congressionally directed funds or existing funded awards. Funding for potential projects in this notice is contingent upon the availability of Fiscal

Year 2012, Fiscal Year 2013 and Fiscal Year 2014 appropriations. Applicants are hereby given notice that funds have not yet been appropriated for any potential activities in this notice. Publication of this announcement does not oblige NOAA to review an application, or to award any specific project, or to obligate any available funds.

Category Explanation:

Expected Number of Awards:

Estimated Total Program Funding:

Award Ceiling:

Award Floor:

CFDA Number(s): 11.609 -- Measurement and
Engineering Research and
Standards

Cost Sharing or Matching Requirement: No

Eligible Applicants

Others (see text field entitled "Additional Information on Eligibility" for clarification)

Additional Information on Eligibility:

Accredited institutions of higher education in the United States and its territories that offer undergraduate and graduate degrees in physics, chemistry, mathematics, computer science, and/or engineering. Institutions must have a 4-year degree plan. Undergraduate and graduate students, who receive fellowships under the PREP-MML, must show evidence of a 3.0 or higher grade point average in a curriculum acceptable to the sponsoring educational institution and NIST/MML and must be enrolled full-time at a sponsoring institution. Post-doctoral associates must be affiliated with a sponsoring institution of higher education and be no more than 5 years beyond receiving their Ph.D.

Agency Name

National Institute of Standards and Technology

Description

NIST announces that the PREP-MML is soliciting applications for financial assistance from accredited institutions of higher education in the United States and its territories to enable those institutions to provide laboratory experiences and financial assistance to undergraduate and graduate students and post-doctoral associates in the MML at the NIST Laboratories in Gaithersburg, Maryland and Charleston, South Carolina.

2012 Marine Education and Training Mini Grant Program

Document Type:	Modification to Previous Grants Notice
Funding Opportunity Number:	NOAA-NMFS-PIRO-2012-2003234
Opportunity Category:	Discretionary
Posted Date:	Dec 19, 2011
Creation Date:	Dec 22, 2011
Original Closing Date for Applications:	Mar 04, 2012
Current Closing Date for Applications:	Mar 02, 2012
Archive Date:	Apr 01, 2012
Funding Instrument Type:	Cooperative Agreement Grant
Category of Funding Activity:	Education Environment Natural Resources Science and Technology and other Research and Development
Category Explanation:	
Expected Number of Awards:	
Estimated Total Program Funding:	\$150,000
Award Ceiling:	
Award Floor:	
CFDA Number(s):	11.452 -- Unallied Industry Projects
Cost Sharing or Matching Requirement:	No

Eligible Applicants

Others (see text field entitled "Additional Information on Eligibility" for clarification)

Additional Information on Eligibility:

Eligible applicants are individuals, institutions of higher education, nonprofits, commercial organizations, state, local and Indian tribal governments. Federal agencies, Federal instrumentalities, or employees of Federal agencies, are not eligible to apply. Eligible applicants are limited to those within the Western Pacific Regional Fishery Management areas.

Agency Name

Department of Commerce

Description

The National Marine Fisheries Service (NOAA/NMFS) is soliciting competitive applications for the 2012 Pacific Islands Region Marine Education and Training Mini-Grant Program. Projects are being solicited to improve communication, education, and training on marine resource issues throughout the region and increase scientific education for marine-related professions among coastal community residents, including indigenous Pacific islanders, Native Hawaiians and other underrepresented groups in the region.

Eligible Applicants

Others (see text field entitled "Additional Information on Eligibility" for clarification)

Additional Information on Eligibility:

Public school districts and accredited private educational institutions located in the U.S. and its territories that offer science classes at the middle school level (Grades 6-8). Such school districts and institutions must offer instruction in general science fields, such as earth science, physical science, chemistry, physics, and/or biology. Public middle schools and teachers are not eligible to submit applications directly to NIST. Each applicant public school district and accredited private educational institution located in the U.S. and its territories is limited to nominating no more than one (1) teacher per middle school in its school district or institution for participation in the NIST Summer Institute Program. For example, if there are 20 middle schools within a school district, the school district may nominate up to 20 teachers, which is one (1) teacher per middle school. The individual teachers that are nominated to participate in the NIST Summer Institute Program must meet the eligibility requirements in Section III.1. of the FFO document.

Agency Name

National Institute of Standards and Technology

Description

NIST is soliciting applications from eligible public school districts and accredited private educational institutions located in the U.S. and its territories nominating middle school science teachers to participate in the NIST Summer Institute Program. The NIST Summer Institute Program will provide selected teachers hands-on activities, lectures, tours, and visits with NIST scientists and engineers at the NIST Campus in Gaithersburg, Maryland. There are two ways to apply for this program: by paper application or by electronic application. Paper Submission: Dr. Susan Heller-Zeisler National Institute of Standards and Technology International and Academic Affairs Office 100 Bureau Drive, Stop 1090 Gaithersburg, MD 20899-1090 Phone: 301-975-3111 Electronic (E-mail) Submission: summerinstitute@nist.gov

Original Closing Date for Applications:	The deadline for receipt of preproposals via electronic mail at the National Sea Grant Office is 4:00 p.m. Eastern Time on February 7, 2012. By March 9, 2012, applicants should receive a summary statement that includes whether their preproposal is likely to fare well ("encouraged") or poorly ("discouraged") as a submitted full proposal. Only those who submit preproposals that meet the deadline, are responsive to this Federal Funding Opportunity, and meet all other requirements of this notice are eligible to submit full proposals. Full proposals are due by 4:00 p.m. Eastern Time on April 17, 2012. State Sea Grant Programs must forward applications unchanged to Grants.gov by 5:00 p.m. Eastern

Time on May 9, 2012.
Applications received after the closing dates and times will not be accepted.

Current Closing Date for Applications: The deadline for receipt of preproposals via electronic mail at the National Sea Grant Office is 4:00 p.m. Eastern Time on February 7, 2012. Science and Technology and other Research and Development

Category Explanation:

Expected Number of Awards:

7

Estimated Total Program Funding:

\$3,200,000

Award Ceiling:

\$500,000

Award Floor:

\$50,000

CFDA Number(s): 11.417 -- Sea Grant Support
Cost Sharing or Matching Requirement: Yes

Eligible Applicants

Others (see text field entitled "Additional Information on Eligibility" for clarification)

Additional Information on Eligibility:

Institutions of higher education, nonprofit organizations, commercial organizations, State, local and Indian tribal governments and individuals are eligible. Federal agencies and their personnel are not permitted to receive federal funding under this competition; however, federal scientists can serve as uncompensated partners or co-Principal Investigators on research proposals. Directors of the state Sea Grant Programs are not eligible to compete for funds under this announcement, although for administrative purposes, they will be considered to be the Principal Investigator for all awards made to their state programs.

Agency Name

Department of Commerce

Description

Depending on the availability of funds, NOAA expects to have approximately \$3,200,000 available for a national competition to fund marine aquaculture research projects for FY 2012. This is part of the overall plan to support the development of environmentally and economically sustainable ocean, coastal, or Great Lakes aquaculture. Aquaculture that occurs in the Great Lakes or its coastal zone is considered marine aquaculture for this competition. Priorities for this FY 2012 competition include: Research to inform specific regulatory decisions; Research that supports multi-use spatial planning; and Socio-economic research targeted to understand aquaculture in a larger context. Proposals must be able to express how the proposed work will have a high probability of significantly advancing U.S. marine aquaculture development in the short-term (1-2 years) or medium-term (3-5 years). This Federal Funding Opportunity includes information on application and criteria for aquaculture research projects requesting a total of \$50,000 to \$500,000 in federal funding for up to a two-year period. Matching funds are required. Given the anticipated amount of funding and the anticipated number and quality of proposals submitted, it is anticipated that at least seven projects will be awarded in FY 2012. Additional proposals from this competition may be selected for funding in the next fiscal year, subject to the availability of funds. Ideally, awards are anticipated to start no later than September 1, 2012.

Corporation for National and Community Service

General Program Overview

AmeriCorps provides resources, both human and financial, to organizations that engage Americans in intensive service to meet our country's critical needs. Grantees use the funding to support AmeriCorps members for intensive service in their community. AmeriCorps grants partially cover the expense of operating an AmeriCorps program and do not cover general organizational expenses. A cash and in-kind match is required.

New Funding Opportunities

AmeriCorps provides support to nonprofits, faith-based and community organizations, and public agencies committed to meeting critical needs in education, public safety, health, and the environment.

Grantees and sponsoring organizations are responsible for recruiting, selecting, and managing members. Some grantees also may provide funding to sub-grantees. To learn which grantees may offer this kind of program support to your organization, please contact your **State Service Commission**.

In general, AmeriCorps NCCC and AmeriCorps VISTA do not provide operating grants of this type. Instead they provide access to AmeriCorps NCCC and AmeriCorps VISTA members to work on projects addressing critical community needs.

Resources

Procurement Technical Assistance Centers (PTACs)

Procurement Technical Assistance Centers (PTACs), are charged with assisting businesses in learning how to do business with federal, state, and local governments. PTACs are a local resource available at no or nominal cost that can provide assistance to business firms in marketing their products and services. They offer training to businesses on how to research and bid on contracts.

Additional Information on Eligibility:

Agency Name

Dept. of the Army -- USAMRAA

Description

The U.S. ARMY ENVIRONMENTAL COMMAND (USAEC) is a Direct Reporting Unit under the Installation Management Command (IMCOM) located at Fort Sam Houston, TX whose mission is to lead and execute environmental programs and provide environmental expertise that enables Army training, operations, acquisition, and sustainable military communities to Army Headquarters, IMCOM Regions, and Installations.

The USAEC has developed Cooperative Agreements, as defined in 10 USC 2684, to obtain assistance in achieving clearly identified public purposes associated with stewardship of the Nation's cultural resources entrusted to the United States Army's and other Military Services' care. Army facilities are rich in cultural resources such as archeological sites, archeological artifacts, Native American sacred sites, and historic buildings, structures, and districts. The Army, in recognition of its growing inventory of cultural resources and limited fiscal resources, intends to accomplish these established public purposes by providing for the stewardship of its cultural resources through development of progressive and efficient strategies for management of these resources. To meet this challenge, the Army recognizes the value of involving stakeholders, and, in particular, the establishment of cooperative agreements in the management of its cultural resources with those stakeholder organizations having an interest in assisting the Army's management efforts. Proposals are sought from public and private educational institutions, museums, federally recognized Indian tribes, private nonprofit organizations, state and local governments, and private industry. Any of the above listed organizations can apply to provide all or any part of the needed cultural resources support. Joint ventures between two or more organizations can be used as a means to enhance support potential. This announcement provides a general description of the Command's programs, including areas of interest; general information; the evaluation and selection criteria; and proposal/application preparation instructions and formats.

Department of Education

Grant Programs Overview at the Department of Education

The Department of Education produces a forecast of funding opportunities under the Department's discretionary grant programs for Fiscal Year 2011. It is anticipated that this forecast will be updated in November. This tool can be used to determine the general schedule and variety of programs offered by the Department on an annual basis.

FORECAST OF FUNDING OPPORTUNITIES UNDER THE DEPARTMENT OF EDUCATION DISCRETIONARY GRANT PROGRAMS FOR FISCAL YEAR (FY) 2011 (As of September 22, 2011)

This document lists virtually all programs and competitions under which the Department (we) has invited or expects to invite applications for new awards and provides actual or estimated deadline dates for the transmittal of applications under these programs. The lists are in the form of charts -- organized according to the Department's principal program offices -- and include programs and competitions we have previously announced, as well as those we plan to announce at a later date.

Note: This document is advisory only and is not an official application notice of the Department of Education. We expect to provide updates to this document starting in the first week of November in a fiscal year and continuing through the following July.

Note on printing: For best results, print this document in landscape orientation.

ORGANIZATION OF THIS DOCUMENT

We have assigned to each principal office a separate chart as follows:

[Chart 1 - Office of English Language Acquisition, Language Enhancement, and Academic Achievement for Limited English Proficient Students.](#)

[Chart 2 - Institute of Education Sciences.](#)

[Chart 3 - Office of Elementary and Secondary Education.](#)

[Chart 4 - Office of Safe and Drug Free Schools.](#)

[Chart 5 - Office of Innovation and Improvement.](#)

[Chart 6 - Office of Postsecondary Education](#) (Link to IFLE Chart)

[Chart 7 - Office of Special Education and Rehabilitative Services](#) (links to NIDRR, SEP, BSA charts).

[Chart 8 - Office of Vocational and Adult Education.](#)

[Chart 9 - Office of the Deputy Secretary - ODS.](#)

DATES

Here's how you can tell whether we've already published an application notice for a particular program or competition in the *Federal Register* and whether the dates we list in this Forecast of Funding Opportunities are actual or estimates:

If we have published the application notice, we will list the *Federal Register* (FR) volume and page number (e.g., 65 FR 53402) after the date in column two. The other dates for that program or competition (columns four and five) are actual (as opposed to estimated) dates.

If we do not follow the date in column two with an FR citation, it means that we have yet to publish the application notice, and the dates (columns, two, four, and five) are estimates only. The actual dates will appear in the official application notice for that program or competition in the *Federal Register*.

Date of Application Notice. In column two of the charts, we lists the actual or estimated date for publication of the application notice for a given program or competition.

Link to Notice. In column three of the charts, after its publication in the *Federal Register*, we will provide a link to the application notice for a given program or competition.

The general information page for Education Grant funding:

ED.gov U.S. Department of Education

Funding Policy Research News About ED

Apply for a Grant

What grants can I apply for from the U.S. Department of Education?

The Department offers several kinds of grants:

- grants to [help students attend college](#). Students can use the [Free Application for Federal Student Aid](#) to apply for Pell Grants and other aid for college.
- formula grants to agencies using formulas determined by Congress. There is no application process.
- discretionary grants to organizations, agencies, and individuals. These are awarded using a competitive process. Anyone who meets the eligibility requirements can apply.

Discretionary grants are what people usually have in mind when thinking about applying for a grant from the Department. The remainder of this page is devoted to discretionary grants and the questions people often ask.

What discretionary grants am I eligible for?

Use the [Guide to Education Programs](#) to identify programs you are eligible to apply for.

Which grant competitions are accepting applications now?

[Discretionary grant application packages](#) lists most ED competitions that are currently open, with links to application information for each competition.

Most ED competitions are announced in [Federal Register Notices](#), which provide information on rules, deadlines, and how to apply.

[IES funding opportunities](#) provides information on research funding opportunities run by the Institute for Education Sciences, including funding for unsolicited grants.

[Grants.gov](#) lists discretionary grant competitions from across the federal government, including many ED competitions.

When will the discretionary grant competition that I'm interested in begin accepting applications?

The ED [grants forecast](#) can help you identify competitions that may open soon.

What are the application procedures for discretionary grants?

Different competitions have different application procedures. Each competition's [application package](#) tells you

Current Closing Date for Applications:	Jan 20, 2012 Applications Available: December 15, 2011. Deadline for Transmittal of Applications: January 20, 2012.
Archive Date:	Feb 19, 2012
Funding Instrument Type:	Grant
Category of Funding Activity:	Education

Category Explanation:
Expected Number of Awards: 175
Estimated Total Program Funding: \$30,998,224
Award Ceiling:
Award Floor:
CFDA Number(s): 84.200 -- Graduate Assistance in
Areas of National Need
Cost Sharing or Matching Requirement: Yes

Eligible Applicants

Others (see text field entitled "Additional Information on Eligibility" for clarification)

Additional Information on Eligibility:

Eligible Applicants: Academic departments of IHEs that meet the requirements in 34 CFR 648.2.

Agency Name

Department of Education

Description

Note: Each funding opportunity description is a synopsis of information in the Federal Register application notice. For specific information about eligibility, please see the official application notice. The official version of this document is the document published in the Federal Register. Free Internet access to the official edition of the Federal Register and the Code of Federal Regulations is available on GPO Access at: <http://www.access.gpo.gov/nara/index.html>. Please review the official application notice for pre-application and application requirements, application submission information, performance measures, priorities and program contact information. Purpose of Program: The GAANN program provides grants to academic departments and programs of institutions of higher education (IHEs) to support graduate fellowships for students with excellent academic records who demonstrate financial need and plan to pursue the highest degree available in their course of study at the institution. Students are not eligible to apply for grants under this program. Catalog of Federal Domestic Assistance (CFDA) Number: 84.200A. Applications for grants under the GAANN program, CFDA number 84.200A, must be submitted electronically using the Government wide Grants.gov Apply site at www.Grants.gov. Through this site, you will be

able to download a copy of the application package, complete it offline, and then upload and submit your application. You may not email an electronic copy of a grant application to us. You may access the electronic grant application for the GAANN program at www.Grants.gov. You must search for the downloadable application package for this program by the CFDA number. Do not include the CFDA number's alpha suffix in your search (e.g., search for 84.200, not 84.200A).

National Institute on Disability and Rehabilitation Research (NIDRR): Research Fellowships Program CFDA Number 84.133F-1 Grant

Document Type:	Grants Notice
Funding Opportunity Number:	ED-GRANTS-121311-002
Opportunity Category:	Discretionary
Posted Date:	Dec 13, 2011
Creation Date:	Dec 13, 2011
Original Closing Date for Applications:	Feb 13, 2012 Applications Available: December 13, 2011. Deadline for Transmittal of Applications: February 13, 2012.
Current Closing Date for Applications:	Feb 13, 2012 Applications

Available: December 13, 2011.
Deadline for Transmittal of
Applications: February 13, 2012.

Archive Date: Mar 14, 2012
Funding Instrument Type: Grant
Category of Funding Activity: Education
Category Explanation:
Expected Number of Awards: 7
Estimated Total Program Funding: \$505,000
Award Ceiling: \$75,000
Award Floor:
CFDA Number(s): 84.133 -- National Institute on
Disability and Rehabilitation
Research
Cost Sharing or Matching Requirement: No

Eligible Applicants

Individuals
Others (see text field entitled "Additional Information on Eligibility" for
clarification)

Additional Information on Eligibility:

Eligible Applicants: Eligible individuals must: (1) satisfy the requirements of 34 CFR 75.60 and 75.61 and (2) have training and experience that indicate a potential for engaging in scientific research related to the solution of rehabilitation problems of individuals with disabilities. The program provides two categories of Research Fellowships: Merit Fellowships and Distinguished Fellowships. (a) To be eligible for a Merit Fellowship, an individual must have either advanced professional training or experience in independent study in an area which is directly pertinent to disability and rehabilitation. Note: In the most recent competitions for this program, Merit Fellowship recipients had research experience at the doctoral level. (b) To be eligible for a Distinguished Fellowship, an individual must have seven or more years of research experience in subject areas, methods, or techniques relevant to rehabilitation research and must have a doctorate, other terminal degree, or comparable academic qualifications. Note: Institutions are not eligible to be recipients of Research Fellowships.

Agency Name

Department of Education

Description

Note: Each funding opportunity description is a synopsis of information in the Federal Register application notice. For specific information about eligibility, please see the official application notice. The official version of this document is the document published in the Federal Register. Free Internet access to the official edition of the Federal Register and the Code of Federal Regulations is available on GPO Access at:

<http://www.access.gpo.gov/nara/index.html>. Please review the official application notice for pre-application and application requirements, application submission information, performance measures, priorities and program contact information. Purpose of Program: The purpose of the Research Fellowships Program is to build research capacity by providing support to highly qualified individuals, including those who are individuals with disabilities, to perform research on the rehabilitation of individuals with disabilities. Note: This program is in concert with NIDRR's currently approved long range plan (the Plan). The Plan is comprehensive and integrates many issues relating to disability and rehabilitation research topics. The Plan, which was published in the Federal Register on February 15, 2006 (71 FR 8166), can be accessed on the Internet at the following site:

<http://www2.ed.gov/legislation/FedRegister/other/2006-1/021506d.html>. Through the implementation of the Plan, NIDRR seeks to: (1) Improve the quality and utility of disability and rehabilitation research; (2) foster an exchange of expertise, information, and training to facilitate the advancement of knowledge and understanding of the unique needs of traditionally underserved populations; (3) determine the best strategies and programs to improve rehabilitation outcomes for underserved populations; (4) identify research gaps; (5) identify mechanisms of integrating research and practice; and (6) disseminate findings. Catalog of Federal Domestic Assistance (CFDA) Number: 84.133F-1. Applications for grants under the Research Fellowships Program--CFDA Number 84.133F-1 must be submitted electronically using the Governmentwide Grants.gov Apply site at www.Grants.gov. Through this site, you will be able to download a copy of the application package, complete it offline, and then upload and submit your application. You may not email an electronic copy of a grant application to us. You may access the electronic grant application for Research Fellowships Program at www.Grants.gov. You must search for the downloadable application package for this program by the CFDA number. Do not include the CFDA number's alpha suffix in your search (e.g., search for 84.133, not 84.133F).

Research

Cost Sharing or Matching Requirement: No

Eligible Applicants

Small businesses

Others (see text field entitled "Additional Information on Eligibility" for clarification)

Additional Information on Eligibility:

Eligible Applicants: Entities that are, at the time of award, small business concerns as defined by the Small Business Administration (SBA). This definition is included in the application package. If it appears that an applicant organization does not meet the eligibility requirements, we will request an evaluation by the SBA. Under circumstances in which eligibility is unclear, we will not make an SBIR award until the SBA makes a determination that the applicant is eligible under its definition of small business concern. All technology, science, or engineering firms with strong research capabilities in any of the priority areas listed in this notice are encouraged to participate. Consultative or other arrangements between these firms and universities or other non-profit organizations are permitted, but the small business concern must serve as the grantee. For Phase I projects, at least two-thirds of the research or analytic activities must be performed by the proposing small business concern grantee.

Agency Name

Department of Education

Description

Note: Each funding opportunity description is a synopsis of information in the Federal Register application notice. For specific information about eligibility, please see the official application notice. The official version of this document is the document published in the Federal Register. Free Internet access to the official edition of the Federal Register and the Code of Federal Regulations is available on GPO Access at: <http://www.access.gpo.gov/nara/index.html>. Please review the official application notice for pre-application and application requirements, application submission information, performance measures, priorities and program contact information. Purpose of Program: The purposes of this program are to stimulate technological innovation in the private sector, strengthen the role of small business in meeting Federal research or research and development (R/R&D) needs, increase the commercial

application of research supported by the U.S. Department of Education (Department), and improve the return on investment from federally funded research for economic and social benefits to the Nation. Note: This program is in concert with NIDRR's currently approved long range plan (the Plan). The Plan is comprehensive and integrates many issues relating to disability and rehabilitation research topics. The Plan, which was published in the Federal Register on February 15, 2006 (71 FR 8165), can be accessed on the Internet at the following site:

<http://www.ed.gov/about/offices/list/osers/nidrr/policy.html>. Through the implementation of the Plan, NIDRR seeks to--(1) Improve the quality and utility of disability and rehabilitation research; (2) foster an exchange of expertise, information, and training to facilitate the advancement of knowledge and understanding of the unique needs of individuals with disabilities from traditionally underserved populations; (3) determine best strategies and programs to improve rehabilitation outcomes for individuals with disabilities from underserved populations; (4) identify research gaps; (5) identify mechanisms of integrating research and practice; and (6) disseminate findings. Catalog of Federal Domestic Assistance (CFDA) Number: 84.133S-1. [Home](#)

GRANTS & CONTRACTS

Much of the work of the Department of Energy's [Office of Science \(SC\)](#) is supported through grants and contractual vehicles. This work is processed through the Office of Science [Grants and Contracts Division \(GCD\)](#) which serves as the principal acquisition, financial assistance (grants and cooperative agreements) and contract/grant management advisor to the Director of Science. The GCD provides independent analyses, advice and recommendations on procurement and assistance actions initiated by SC; identifies problem areas, opportunities and management issues and makes recommendations; serves as SC focal point in developing positions and responses to proposed Federal and DOE procurement and assistance regulations and business management policies and procedures; provides advice and guidance and serves as the SC focal point with DOE field offices, laboratories, universities, contractors, grantees and other Government agencies on SC policies and strategies with respect to acquisition, financial assistance and contract/grant management issues.

The Department's [Office of Nuclear Energy](#) re-established, in FY 1998, a competitive peer-reviewed program to provide grants allowing nuclear engineering faculty and students to conduct innovative research in nuclear engineering and related areas. The awards run from one to three years and are granted in eight separate technical areas related to nuclear engineering: reactor physics, reactor engineering, reactor materials, radiological engineering, radioactive waste management, applied radiation science, nuclear safety and risk analysis, and innovative technologies for next generation reactors, space power and propulsion, or radiation sources. This type of research is vital to the academic community to help promote excellence in nuclear engineering and provide resolution to issues confronting nuclear engineering in general.

The [Office of Nuclear Energy](#) provides tuition, stipends, and practicums to outstanding graduate students studying nuclear engineering and health physics and undergraduate scholarships and practicums to students pursuing a nuclear engineering course of study to ensure that our country will have an adequate supply of trained nuclear scientists and engineers. As an element of this activity, the University Partnership Program pairs minority institutions with institutions offering a nuclear engineering degree to enable more minorities to enter the field of nuclear engineering.

Description

The U.S. Department of Energy (DOE), National Nuclear Security Administration (NNSA), Defense Nuclear Nonproliferation (DNN), Office of Nonproliferation and Verification Research and Development (DNN R&D) is soliciting applications for the research and development (R&D) needs described herein. DNN R&D has the responsibility to sponsor R&D

activities to improve capabilities to detect and monitor indicators of foreign nuclear weapons programs. DNN R&D is sponsoring research in Radiation Sensors and Advance Materials Research; Remote Sensing; Simulations, Algorithms and Modeling; and Enabling Technology for Mass Spectrometry. To meet its mission, DNN R&D applies the broad base of U.S. technical expertise to include the DOE National Laboratories, academia and industry. This Funding Opportunity Announcement (FOA) solicits research grant applications from universities as define in Section IV. A. of the FOA announcement. DOE anticipates making 8-10 awards under this announcement depending on the size of the awards in FY2012. DOE also anticipates making 8-10 awards under this announcement depending on the size of the awards in FY2013. DOE reserves the right to make more or less awards than the number anticipated, or to make no awards at all.

NNSA

Description

The Office of Stockpile Stewardship, under Defense Programs within the Department of Energy's (DOE) National Nuclear Security Administration (NNSA), created the Stewardship Science Academic Alliances (SSAA) Program to support fundamental science at U.S. universities in the areas of: 1. Materials Under Extreme Conditions 2. Low Energy Nuclear Science (LENS) 3. Radiochemistry 4. High Energy Density Physics (HEDP) This FOA includes a call for Cooperative Agreements for the SSAA Centers of Excellence in the fields of Materials Under Extreme Conditions, Low-Energy Nuclear Science, Radiochemistry, and High-Energy-Density Physics. This FOA also includes a call for research grants in the fields of Materials Under Extreme Conditions, Low-Energy Nuclear Science, and Radiochemistry, but will fund no research grants in High-Energy-Density Physics. A "research grant" is awarded for up to three years at a funding level appropriate for the proposed scope, typically \$50,000 to \$300,000 per year. A "cooperative agreement" is awarded for

up to five years at a funding level appropriate for the proposed scope, typically \$1,000,000 to \$3,000,000 per year. If an institution is awarded a Cooperative Agreement, it is also defined as a Center of Excellence. These grants and cooperative agreements will be awarded in both FY 2012 and FY 2013. DOE/NNSA will accept new and renewal applications under this announcement. Renewal applications are requests for additional funding for a period subsequent to that provided by a current award. Researchers seeking renewals of their grants which expire in FY 2012 or FY 2013 must apply to this FOA.

Environmental Justice Small Grants Program

Document Type:	Grants Notice
Funding Opportunity Number:	EPA-OECA-OEJ-12-01
Opportunity Category:	Discretionary
Posted Date:	Dec 09, 2011
Creation Date:	Dec 09, 2011
Original Closing Date for Applications:	Feb 29, 2012 Please refer to the announcement, including Section IV, for additional information on submission methods and due dates.
Current Closing Date for Applications:	Feb 29, 2012 Please refer to the announcement, including Section IV, for additional information on submission methods and due dates.
Archive Date:	Mar 30, 2012
Funding Instrument Type:	Grant
Category of Funding Activity:	Environment
Category Explanation:	
Expected Number of Awards:	40
Estimated Total Program Funding:	\$1,000,000
Award Ceiling:	\$25,000
Award Floor:	\$25,000
CFDA Number(s):	66.604 -- Environmental Justice Small Grant Program
Cost Sharing or Matching Requirement:	No

Eligible Applicants

Others (see text field entitled "Additional Information on Eligibility" for clarification)

Additional Information on Eligibility:

See Section III of the announcement for additional eligibility information.

Agency Name

Environmental Protection Agency

Description

The Environmental Justice Small Grants Program (EJSG) provides funding for eligible applicants for projects that address local environmental public health issues within an affected community. The EJSG Program is designed to help communities understand and address exposure to multiple environmental harms and risks.

Opportunity Category:	Discretionary
Posted Date:	Nov 21, 2011
Creation Date:	Dec 05, 2011
Original Closing Date for Applications:	Jan 23, 2012 Please refer to the full announcement, including Section IV, for additional information on submission methods and due dates.
Current Closing Date for Applications:	Jan 23, 2012 Please refer to the full announcement, including Section IV, for additional information on submission methods and due dates.
Archive Date:	Nov 21, 2012
Funding Instrument Type:	Cooperative Agreement
Category of Funding Activity:	Environment
Category Explanation:	
Expected Number of Awards:	55
Estimated Total Program Funding:	\$3,800,000
Award Ceiling:	\$60,000
Award Floor:	\$0
CFDA Number(s):	66.440 -- Urban Waters Small Grants
Cost Sharing or Matching Requirement:	Yes

Eligible Applicants

Others (see text field entitled "Additional Information on Eligibility" for clarification)

Additional Information on Eligibility:

See Section III of the announcement for additional eligibility information.

Agency Name

Environmental Protection Agency

Description

The U.S. Environmental Protection Agency (EPA) is soliciting proposals from eligible applicants for projects that will contribute to improved water quality in urban areas. The goal of the Urban Waters Small Grants is to fund research, studies, training, and demonstration projects that will advance the restoration of urban waters by improving water quality through activities that also support community revitalization and other local priorities. In general, projects should promote a comprehensive understanding of local water quality issues; identify and support activities that address these issues at the local level; engage, educate and empower communities surrounding the urban water body; and benefit surrounding communities including those that have been adversely impacted by the water pollution issues affecting the urban water body. The statutory authority for the cooperative agreements to be funded under this announcement is Section 104(b)(3) of the CWA, 33 USC §1254(b)(3). CWA Section 104(b)(3) restricts the use of these cooperative agreements to the following: conducting or promoting the coordination and acceleration of research, investigations, experiments, training, demonstrations, surveys, and studies relating to the causes, effects (including health and welfare effects), extent, prevention, reduction, and elimination of water pollution. Projects that are demonstrations must involve new or experimental technologies, methods, or approaches. EPA expects that the results of the project will be disseminated so that others can benefit from the knowledge gained in the demonstration project. A project that is accomplished through the performance of routine, traditional, or established practices, or a project that is simply intended to carry out a task rather than transfer information or advance the state of knowledge, however worthwhile the project might be, is not considered a demonstration project. For proposals that include demonstration projects, the applicant must describe how the project meets the above requirements. Implementation projects are not eligible for funding under this announcement.

HHS Grants Forecast

The Department of Health and Human Services' Grants Forecast is a database of **planned** grant opportunities proposed by its [agencies](#). Each Forecast record contains actual or estimated dates and funding levels for grants that the agency intends to award during the fiscal year. Forecast **opportunities are subject to change** based on enactment of congressional appropriations.

When funding is available and an agency is ready to accept applications, the agency will issue an official notice, known as a Funding Opportunity Announcement (FOA), which will be available on Grants.gov. The FOA provides guidance on how to receive an application kit and instructions on how to apply.

Estimated Total Program Funding: \$31,000,000
Award Ceiling:
Award Floor:
CFDA Number(s): 93.824 -- Area Health Education
Centers Infrastructure
Development Awards
Cost Sharing or Matching Requirement: Yes

Eligible Applicants

Others (see text field entitled "Additional Information on Eligibility" for clarification)

Additional Information on Eligibility:

Entities eligible to apply for AHEC Infrastructure Development awards [CFDA:93.824] are public or nonprofit private accredited schools of allopathic medicine and osteopathic medicine and incorporated consortia made up of such schools, or the parent institutions of such schools. In states and territories in which no AHEC program is in operation, an accredited school of nursing is an eligible applicant. An entity eligible to apply for AHEC Point of Service Maintenance and Enhancement awards [CFDA: 93.107] is one that has received funds under section 751 of the PHS Act, is operating an AHEC program, including an AHEC center or centers as defined in section 751, and has a center or centers that are no longer eligible to receive financial assistance under section 751(a)(1). An academic institution shall use such assistance in collaboration with two or more disciplines. Entities eligible to apply for AHEC Infrastructure Development awards are public or private nonprofit accredited schools of allopathic medicine and osteopathic medicine and incorporated consortia made up of such schools, or the parent institutions of such schools. In States and Territories in which no AHEC program is in operation, an accredited school of nursing is an eligible applicant.

Agency Name

Health Resources & Services Administration

Description

The Area Health Education Center (AHEC) programs consist of interdisciplinary, community-based, primary care training programs wherein academic and community-based leaders work to improve the distribution, diversity, supply, and quality of health personnel, particularly primary care personnel in the health care services delivery system and more specifically in delivery sites in rural and other underserved areas. This funding opportunity announcement (FOA) solicits applications for a five-year project period for AHEC Infrastructure Development awards and AHEC Point of Service Maintenance and Enhancement awards. Successful applicants will be awarded cooperative agreements to establish and advance statewide or multi-county AHEC programs.

Department of Homeland Security

The Department of Homeland Security enhances the ability of states, local and tribal jurisdictions, and other regional authorities in the preparation, prevention, and response to terrorist attacks and other disasters, by distributing grant funds. Localities can use grants for planning, equipment, training and exercise needs.

The screenshot shows the Department of Homeland Security website. At the top, there is a navigation bar with the DHS logo, the text "Homeland Security", a photo of Mark CBP Pilot, and social media icons for Facebook, Twitter, and YouTube. Below the navigation bar is a menu with links for Home, Counterterrorism, Border Security, Preparedness, Response, Recovery, Immigration, Cybersecurity, and News. The main content area is divided into several sections:

- Contracts & Grants**: Grants, Contract Opportunities, Small Business Assistance, Policy & Regulations, Events.
- Open for Business - Grants**: On This Page:
 - State, Local and Tribal Grant Programs
 - Find and Apply for Grants
 - Grant Administration Resources

Important Information and Updates SAFER Get Ready Guides 2011

The Staffing for Adequate Fire and Emergency Response (SAFER) application period will be opening soon!

Please read the SAFER Get Ready Guides and start preparing now

SAFER 2011 Get Ready

Application Guides:

- [Get Ready Guide Overview](#)
- [Hiri http://www.fema.gov/firegrants/safer/index.shtmng](http://www.fema.gov/firegrants/safer/index.shtmng) Grants Guide (PDF 1MB)
- [Recruitment & Retention Guide](#) (PDF 1MB)

The Assistance to Firefighters Grants (AFG) program's Staffing for Adequate Fire and Emergency Response (SAFER) application period will be opening soon! The SAFER grants have two different activities in which you can apply, the Hiring activity and the Recruitment and Retention activity. FEMA has developed Get Ready Guides for each activity. These handy guides will kick-start your grant application planning and help you to thoroughly answer all the grant application questions.

The purpose of the Hiring grants is to assist fire departments in increasing their cadre of frontline firefighters. These grants are intended to create a net increase in the number of trained, certified, and competent firefighters capable of safely responding to emergencies within the grantee's geographic response area. The goal is to assist local fire departments with staffing and deployment capabilities so they may respond to emergencies whenever they occur, assuring their communities have adequate protection from fire and fire-related hazards.

Section 202 Demonstration Pre-Development Grant Program

Document Type:	Grants Notice
Funding Opportunity Number:	FR-5564-N-01

Opportunity Category:	Discretionary
Posted Date:	Dec 05, 2011
Creation Date:	Dec 05, 2011
Original Closing Date for Applications:	Jan 18, 2012
Current Closing Date for Applications:	Jan 18, 2012
Archive Date:	Jan 25, 2012
Funding Instrument Type:	Grant
Category of Funding Activity:	Community Development Housing
Category Explanation:	
Expected Number of Awards:	100
Estimated Total Program Funding:	\$20,000,000
Award Ceiling:	\$400,000
Award Floor:	
CFDA Number(s):	14.157 -- Supportive Housing for the Elderly
Cost Sharing or Matching Requirement:	No

Eligible Applicants

Others (see text field entitled "Additional Information on Eligibility" for clarification)

Additional Information on Eligibility:

All private nonprofit organizations and nonprofit consumer cooperatives that submitted an application for funding consideration under the FY 2010 Section 202 Program NOFA are eligible to apply for funding under this Demonstration Pre-Development Grant program. (Please refer to the FY 2010 Section 202 Program NOFA for a discussion on the eligibility criteria for the Section 202 program.) However, funding awards under this Section 202 Demonstration Pre-Development Grant program will be restricted to those applicants that were selected for Fund Reservation Awards under the FY 2010 program NOFA for the Section 202 Supportive Housing for the Elderly program.

Agency Name

Department of Housing and Urban Development

Description

The purpose of this Demonstration Pre-Development Grant program is to assist Sponsors of projects that receive Fund Reservation Awards pursuant to the FY 2010 NOFA for the Section 202 Supportive Housing for the Elderly program, as amended to include FY 2011 appropriations, by providing pre-development grant funding for architectural and engineering work, site control, and other planning related expenses that are eligible for funding under the Section 202 Supportive Housing for the Elderly program. Subsequent to providing pre-development grant funding to the selected applicants, HUD will assess the impact of the availability of such funding on the ability of project Sponsors to expedite the development processing of projects from Section 202 Fund Reservation to Initial Closing within 18 months. HUD is aware of the complexities of developing Section 202 projects and understands that a lack of pre-development funding may be a contributing factor in many instances where project Sponsors are not able to move their approved projects from Fund Reservation award to Initial Closing within the required 18-month time frame. Funding under this program is not intended to duplicate Section 202 Capital Advance funding, but rather to provide a source of funding for pre-development costs that would otherwise not be reimbursable until Initial Closing or would be payable from eligible funding resources secured outside of Section 202 Capital Advance funding.

Eligible Applicants

Others (see text field entitled "Additional Information on Eligibility" for clarification)

Additional Information on Eligibility:

Eligible applicants for Comprehensive Counseling grants include: HUD-approved Local Housing Counseling Agencies (LHCAs); HUD-approved national and regional intermediaries (Intermediaries); State Housing Finance Agencies (SHFAs); and HUD-approved Multi-State Organizations (MSOs). Grantees and sub-grantees that were previously awarded HUD MMMSA counseling funds for FY 2012 are also eligible for FY 2012 funding through this NOFA covering the same period of performance.

Agency Name

Department of Housing and Urban Development

Description

This program supports the delivery of a wide variety of housing counseling services to homebuyers, homeowners, low- to moderate-income renters, and the homeless. The primary objectives of the program are to improve financial literacy, expand homeownership opportunities, improve access to affordable housing and preserve homeownership. Counselors provide guidance and advice to help families and individuals improve their housing conditions and meet the responsibilities of tenancy

and homeownership. Additionally, counselors may provide counseling services to homeowners to prevent or resolve mortgage delinquency, default, and foreclosure, with the primary objective to preserve homeownership. Counselors provide guidance and advice to help families and individuals meet the responsibilities of homeownership and modify or refinance their loans. Counselors also help borrowers avoid inflated appraisals, unreasonably high interest rates, unaffordable repayment terms, and other conditions that can result in a loss of equity, increased debt, default, and eventually foreclosure. Counselors can also assist homeowners with inquiries related to mortgage scams, and reporting instances of potential mortgage scam victimization. Applicants funded through this program may also provide Reverse Mortgage Counseling to senior homeowners who seek to convert equity in their homes into income that can be used to pay for home improvements, medical costs, living expenses, or other expenses. FUNDING: Housing counseling funding is distributed over four applicant categories Local Housing Counseling Agencies \$10,250,000, Intermediaries \$25,800,000, State Housing Finance Agencies \$2,800,000, and Multi-State Organizations \$1,200,000.

The U.S. Department of the Interior's Office of Acquisition and Property Management oversees the overall implementation of department's procurement and grant programs. This includes ensuring these programs perform in accordance with current applicable laws and regulations. Each of our bureaus, as well as other major organizations within Interior, has its own procurement office. These offices contract with the private sector for a variety of supplies, equipment and services. Services our procurement offices have acquired by contract include training, architect-engineer services, advisory and assistance services, custodial services, guard services, operation and maintenance, telecommunications services and information-technology services, maintenance and support.

In This Section:

Department of Justice

Grants and Contract Overview

The Department offers funding opportunities to conduct research, to support law enforcement activities in state and local jurisdictions, to provide training and technical assistance, and to implement programs that improve the criminal justice system.

The DOJ agencies listed below also have sites that provide grant information specific to that agency. Examples of what can be found on these sites are

programs, funding opportunities, application assistance, and other useful information.

- [Bureau of Justice Assistance \(BJA\)](#)
- [Bureau of Justice Statistics \(BJS\)](#)
- [National Criminal Justice Reference Service \(NCJRS\)](#)
- [National Institute of Justice \(NIJ\)](#)
- [Office of Juvenile Justice and Delinquency Prevention \(OJJDP\)](#)
- [Office of Sex Offender Sentencing, Monitoring, Apprehending, Registering, and Tracking \(SMART\)](#)
- [Office for Victims of Crime \(OVC\)](#)

The screenshot shows the Department of Justice website's 'Business & Grants' section. The header includes the Department of Justice logo and the motto 'THE COMMON LAW IS THE WILL OF Mankind ISSUING FROM THE Life OF THE People'. A search bar is located in the top right. The main navigation menu includes 'HOME', 'ABOUT', 'AGENCIES', 'BUSINESS', 'RESOURCES', 'NEWS', 'CAREERS', and 'CONTACT'. The breadcrumb trail reads 'Home > Business & Grants > Grants'. The page features a 'GRANTS' section with an eagle graphic, followed by a paragraph explaining the Department's funding opportunities. Below this are three sub-sections: 'Office of Justice Programs' (OJP), 'Office on Violence Against Women' (OVW), and 'Community Oriented Policing Services' (COPS). Each sub-section includes a logo and a brief description of the grants offered. On the right side, there are three promotional boxes: 'OPEN GOVERNMENT AT THE DEPARTMENT OF JUSTICE', 'THE CRIMINAL JUSTICE SYSTEM as a COUNTERTERRORISM TOOL', and 'DEFENDING THE AFFORDABLE CARE ACT'. At the bottom right, there is a 'JUSTICE.GOV en ESPAÑOL' link and a 'DEPARTMENT OF JUSTICE ACTION CENTER' box with links for 'Report a Crime' and 'Get a Job'.

Agency Name

Bureau of Justice Assistance

Description

The Second Chance Act of 2007 (Pub. L. 110-199) provides a comprehensive response to the increasing number of incarcerated adults and juveniles who are released from prison, jail, and juvenile residential facilities and returning to communities. There are currently over 2.3 million individuals serving time in our federal and state prisons, and millions of people cycling through local jails every year. There are approximately 94,000 youth in residential confinement within the juvenile justice system on any given day. Ninety-five percent of all offenders incarcerated today will eventually be released and will return to communities. The Second Chance Act will help ensure that the transition

individuals make from prison, jail, or juvenile residential facilities to the community is successful and promotes public safety. Section 115 of the Second Chance Act authorizes federal awards to states, units of local government, territories, and federally recognized Indian tribes to provide technology career training to persons confined in state prisons, local jails, and juvenile residential facilities.

Agency Name

Bureau of Justice Assistance

Description

The Bureau of Justice Assistance's (BJA) Justice and Mental Health Collaboration Training and Technical Assistance Program supports the Justice and Mental Health Collaboration Program (JMHCP). This program is funded through the Mentally Ill Offender Treatment and Crime Reduction Act of 2004 (MIOTCRA) (Public Law 108-414), which was reauthorized in 2008 (Public Law 110-416). BJA is seeking a training and technical assistance (TTA) provider to deliver TTA to grantees to assist with their efforts to plan, implement, or expand adult or juvenile justice and mental health collaboration programs.

and related public safety and survivor initiatives is essential. For-profit organizations must agree to forgo any profit or management fee.

Agency Name

Bureau of Justice Assistance

Description

Enacted in 1976, the Public Safety Officers' Benefits (PSOB) Program is a collaborative effort of the U.S. Department of Justice, Office of Justice Programs (OJP), Bureau of Justice Assistance (BJA), PSOB Office, and local, state, tribal, and federal public safety agencies and national organizations to provide Death, Disability, and Education Benefits to those eligible for the program. This collaboration relies significantly on the ability of the PSOB Office to work with national partners to maintain and enhance a wide range of effective survivor resources, including national peer support and counseling programs that assist the families of public safety officers who have fallen in the line of duty.

Department of Labor

Agency Grants and Contract General Overview

Department of Labor Grant Programs

- **Bureau of International Labor Affairs (ILAB):** provides grants (cooperative agreements) for the implementation of projects designed to

assist developing countries combat the worse forms of child labor, forced labor, and human trafficking; and support worker rights and improve working conditions. Solicitations for grant applications are announced on www.grants.gov/ and at www.dol.gov/ILAB/grants/main.htm. ILAB grants are awarded by the [OASAM grant office](#).

- **Bureau of Labor Statistics (BLS):** provides project grants (cooperative agreements) and the dissemination of technical statistical data and related information on labor force activities; provides data on prices (CPI) and cost of living; data on productivity and technology data; data on compensation and working conditions; data on employment projections.
- **Employment and Training (ETA):** ETA administers financial assistance programs pursuant to the Workforce Investment Act (WIA), administering State formula grant programs for youth, adults and dislocated workers, national emergency grants for workers affected by mass layoffs, plant closures, and disasters; grant programs for workers with disabilities, Indians and Native Americans, and for migrant and seasonal farmworkers. ETA also administers grant programs for older American workers, apprenticeship programs, Trade Adjustment Assistance (TAA) programs, and assistance for research and development of workforce programs. In addition, ETA is responsible for the operation and maintenance of a national system of public employment service offices and for the national unemployment insurance program.
- **Mine Safety and Health (MSHA):** provides grants for research, education and training programs to ensure an adequate and competent staff of trained inspectors; and assistance for establishing or improving State mine health and safety programs through technical assistance.
- **Occupational Safety and Health (OSHA):** provides grants to non-profit organizations to provide training, educational services, and technical assistance; assistance to states to administer and enforce state programs; assistance to states to provide occupational safety and health technical assistance and consultant services.
- **Office of Disability Employment Policy (ODEP):** The Office of Disability Employment Policy awards competitive grants establishing short-term pilot and technical assistance projects designed to identify, develop, test, evaluate, and disseminate policies to increase employment by expanding access to training, education, employment supports, assistive and systems technology, integrated employment, entrepreneurial development, and small business opportunities for adults and youth with disabilities. Current pilots projects focus on customized employment, Olmstead populations, and innovative demonstration youth grants, among others. Solicitations for grant applications are published in the Federal Register and announced at www.dol.gov/odep. ODEP grants are awarded by the [OASAM grant office](#).
- **Veterans' Employment and Training (VETS):** provides special employment and training assistance for veterans through the [Disabled Veterans' Outreach Program \(DVOP\) Solicitation for Grant Applications](#);

the [Local Veterans' Employment Representative Program \(LVER\)](#); [Veterans' Workforce Investment Program \(VWIP\)](#); [elaws Advisor on veterans' employment and reemployment rights](#); and the [Homeless Veterans Reintegration Project \(HVRP\)](#). VETS grants are awarded by the [OASAM grant office](#).

GRANTS AND PROCUREMENT

NASA Office of Procurement

- NASA Center Procurement Sites and Contact Information - NASA procurement points-of-contact can be located on each center's procurement home page.

NASA Acquisition Internet Service (NAIS) - is a service, from which industry has immediate access to current acquisition information over the internet. The NAIS is a collection of on-line servers operated at each NASA field installation, and all are interconnected to ease the vendor's access to all NASA acquisitions. Synopses, solicitations, award notices, acquisition forecasts, regulations, forms, and small business assistance are posted.

- View contracts, grants, space act agreements or cooperative agreements and any purchase order with a value greater than \$25,000 awarded or modified during a fiscal year. This data has been made available here to provide assistance to NASA management, industry, private individuals, and other government entities.
- NASA Unsolicited Proposals - *Guidance for the Preparation and Submission*. This document provides guidelines for the preparation of formal unsolicited proposals to those who wish to convey their creative methods or approaches to NASA. These guidelines apply to all unsolicited proposals regardless of the NASA Installation or Agency program for which they are intended, but do not apply to solicited proposals.
- Grant and Cooperative Agreement Handbook - Active Grant Notices (GNs) and Active Grant Information Circulars (GICs). This handbook consists of four sections that prescribe policies and procedures relating to the award and administration of NASA grants and cooperative agreements.
- NASA Acquisition Forecast - It is NASA policy to prepare an annual forecast and a semiannual update of expected contract opportunities, or classes of contract opportunities, for each fiscal year. The forecast consolidates anticipated procurements (in excess of the simplified acquisition threshold) at each NASA Center with the aim of increasing industries' advance knowledge of NASA requirements and to enhance competition. This forecast is subject to revision or cancellation, and is for Government planning purposes only. You are urged to review the Commerce Business Daily and the NASA Acquisition Internet Service for the actual notice of a pending contract action.

NASA Research Opportunities Online - Various NASA offices publish their research announcements over the internet, broadening the opportunity for researchers to apply for funding. This site provides access to current research announcements along with their specific due dates.

- The NASA Online Research Proposal Web site - The SYS - EYFUS is an electronic system (SYS - EYFUS) used by NASA Headquarters to request, receive, evaluate and follow-up on research proposals sponsored by NASA's Office of Equal Opportunity (Code E), Office of Earth Science (Code Y), Office of Human Resources & Education Division (Code F), Office of Life and Microgravity Sciences and Applications (Code U), and Office of Space Science (Code S). SYS - EYFUS also supports the funding and administration of awards pursuant to selection of these research opportunities.

Grant Opportunities

Listed are our current grant categories. If the deadline has passed, the announcement is being revised and will appear at least 90 days before the new deadline.

- Archives Leadership Institute**
The National Historical Publications and Records Commission seeks proposals from organizations to continue the Archives Leadership Institute.
 - Final Deadline: October 6, 2011
- Documenting Democracy: Access to Historical Records**
The National Historical Publications and Records Commission seeks proposals that promote the preservation and use of the nation's most valuable archival resources. Projects should expand our understanding of the American past by facilitating and enhancing access to primary source materials.
 - Final Deadline: October 6, 2011
- Digitizing Historical Records**
The National Historical Publications and Records Commission seeks proposals that use cost-effective methods to digitize nationally significant historical record collections and make the digital versions freely available online. Projects must make use of existing holdings of historical repositories and consist of entire collections or series. The materials should already be available to the public at the archives and described so

Native American tribal governments (Federally recognized)
Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education
Private institutions of higher education

Additional Information on Eligibility:

Agency Name

National Archives and Records Administration

Description

The National Historical Publications and Records Commission seeks proposals that use cost-effective methods to digitize nationally significant historical record collections and make the digital versions freely available online. Projects must make use of existing holdings of historical repositories and consist of entire collections or series. The materials should already be available to the public at the archives and described so that projects can re-use existing information to serve as metadata for the digitized collection. To make these projects as widely useful as possible for archives, historical repositories, and researchers, the applications must demonstrate: 1. The national significance of the collections or records series to be digitized; 2. An effective work flow that repurposes existing descriptive material, rather than creating new metadata about the records; 3. Reasonable costs and standards for the project as well as sustainable preservation plans for the resulting digital records; 4. Well-designed plans that evaluate the use of the digitized materials and the effectiveness of the methods employed in digitizing and displaying the materials. Projects may not use grant funds to create * descriptive metadata or * edited transcriptions of the digitized materials or * develop websites where people will have to pay a fee to view the images. For a comprehensive list of Commission limitations on funding, please see “What we do and do not fund” (<http://www.archives.gov/nhprc/apply/eligibility.html>). A grant normally is for one to three years and up to \$150,000. The Commission expects to make up to 8 grants in this category, for a total of up to \$700,000. The Commission requires that grant recipients acknowledge NHPRC grant assistance in all products that result from its support. Eligible applicants: * Nonprofit organizations or institutions * Colleges, universities, and other academic institutions * State or local government agencies * Federally-acknowledged or state-recognized Native American tribes or groups Applicant organizations must be registered in Central Contractor Registration (CCR) prior to submitting an application, maintain CCR registration throughout the application and award process, and include a valid DUNS number in their application. Details on CCR registration and requesting a DUNS number can be found at the Central Contractor Registration website. Ineligible applications will not be considered. Cost sharing is required. It is the financial contribution the applicant pledges to the cost of a project. Cost sharing can include both direct and indirect expenses, in-kind contributions, non-Federal third-party contributions, and any income earned directly by the project. The NHPRC will provide up to 50 percent of the total project costs.

Private institutions of higher education

Additional Information on Eligibility:

Agency Name

National Archives and Records Administration

Description

The National Historical Publications and Records Commission seeks proposals to publish historical records of national significance. Projects may focus on the papers of major figures from American life or cover broad historical movements in politics, military, business, social reform, the arts, and other aspects of the national experience. The historical value of the records and their expected usefulness to broad audiences must justify the costs of the project. Grants are awarded for collecting, describing, preserving, compiling, editing, and publishing documentary source materials. Because of the focus on documentary sources, grants do not support preparation of critical editions of published works unless such works are just a small portion of the larger project. All applicants should be aware that the application process is highly competitive. A top priority of the Commission is to support projects with plans to provide free online access to the editions they are preparing. A publishing project that has received NHPRC support can apply for a grant for a new or subsequent stage of that project. Such projects may plan editions on print, microfilm, or other media. In any case, they must present plans for online publication of their editions, including methods of providing free access. These plans need not include provision for the retrospective conversion of material already published. Applicants that have received NHPRC grants in the past must demonstrate that their ongoing projects have successfully achieved the performance objectives associated with previous NHPRC awards. Proposals must be substantially updated, including a description of the new activities, progress towards preparing online editions, and a justification of the new budget. Applicants not previously funded may apply for a grant to begin a historical documents publishing project. These applications are considered with other proposals. Although they may publish in other media, the initial focus of these projects must be on the preparation of online editions. The NHPRC does not fund proposals to purchase historical records; nor does it fund proposals to publish the papers of anyone who has been deceased for fewer than ten years. For a comprehensive list of Commission's limitations on funding, please see What We Do and Do Not Fund. Applicants may apply for funding for up

to three years, but should be aware that the Commission normally awards grants on an annual basis; subsequent funding is conditioned on project's previous years' performance. Award amounts ordinarily range from \$20,000 to \$250,000 annually. Depending on the availability of funding, the Commission expects to make as many as 30 grants in this category, for a total of up to \$2,500,000. In accordance with Federal regulations, the Commission reserves, for Federal Government purposes, a royalty-free, non-exclusive, and irrevocable license to reproduce, publish, or otherwise use the work and authorize others to reproduce, publish, or otherwise use the work that results from each grant. The Commission requires that grant recipients acknowledge NHPRC grant assistance in all publications and other products that result from its support. Eligible applicants: * United States nonprofit organizations or institutions * Colleges, universities, and other academic institutions * State or local government agencies * Federally-acknowledged or state-recognized Native American tribes or groups Applicant organizations must be registered in Central Contractor Registration (CCR) prior to submitting an application, maintain CCR registration throughout the application and award process, and include a valid DUNS number in their application. Details on CCR registration and requesting a DUNS number can be found at the Central Contractor Registration website. Ineligible applications will not be considered.

National Endowment for the Arts

Agency Grant Overview - <http://nea.gov/grants/apply/index.html>

To explore available funding opportunities, click on the artistic discipline or field below that is most relevant to your project. In most areas, funding is limited to organizations. (Direct awards to individuals are made only through Literature Fellowships, NEA Jazz Masters Fellowships, NEA Opera Honors, and NEA National Heritage Fellowships in the Folk & Traditional Arts.)

The **FY 2013 Grants for Arts Projects guidelines** will be posted in January. Deadlines: Art Works - March 8 and August 9, 2012; Challenge America - May 24, 2012.

The **FY 2012 Our Town guidelines** have been posted. Deadline: March 1, 2012.

The Research: Art Works guidelines are now posted. Grants are available for research projects to analyze the value and impact of the arts in the United States.

Federal Partnership opportunities such as National Arts and Humanities Youth Program Award are listed within the disciplines/fields.

Category of Funding Activity: Arts (see "Cultural Affairs" in CFDA)
Category Explanation:
Expected Number of Awards:
Estimated Total Program Funding:
Award Ceiling: \$150,000
Award Floor: \$25,000
CFDA Number(s): 45.024 -- Promotion of the Arts Grants to Organizations and Individuals
Cost Sharing or Matching Requirement: Yes

Eligible Applicants

State governments
County governments
City or township governments
Special district governments
Independent school districts
Public and State controlled institutions of higher education
Native American tribal governments (Federally recognized)
Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education
Private institutions of higher education

Additional Information on Eligibility:

The Arts Endowment's support of a project may start on September 1, 2012, or any time thereafter. A grant period of up to two years is allowed. Applicant Eligibility All applications must have partnerships that involve two primary partners: a nonprofit organization and a local governmental entity. One of the two primary partners must be a cultural (arts or design) organization. Additional partners are welcomed. One of the two primary partners must act as the official applicant (lead applicant). This lead applicant must meet the eligibility requirements, submit the application, and assume full responsibility for the grant. To be eligible, the lead

applicant organization must: • For an organization other than a local government, have a three-year history of programming prior to the application deadline. • Meet the Arts Endowment's "Legal Requirements," including nonprofit, tax-exempt status, as detailed in the Grants for Arts Projects guidelines, at the time of application. • Have submitted acceptable Final Report packages by the due date(s) for all Arts Endowment award(s) previously received.

Agency Name

National Endowment for the Arts

Description

The Arts Endowment's support of a project may start on September 1, 2012, or any time thereafter. A grant period of up to two years is allowed. Grant Program Description Art works to improve the lives of America's citizens in many ways. Communities across our nation are engaging design and leveraging the arts to create livable, sustainable neighborhoods with enhanced quality of life, increased creative activity, distinct identities, a sense of place, and vibrant local economies that capitalize on existing local assets. The NEA defines these efforts as Creative Placemaking: "In creative placemaking, partners from public, private, nonprofit, and community sectors strategically shape the physical and social character of a neighborhood, town, tribe, city, or region around arts and cultural activities. Creative placemaking animates public and private spaces, rejuvenates structures and streetscapes, improves local business viability and public safety, and brings diverse people together to celebrate, inspire, and be inspired." Ann Markusen, Markusen Economic Research Services Anne Gadwa, Metris Arts Consulting From Creative Placemaking

Eligible Applicants

Others (see text field entitled "Additional Information on Eligibility" for clarification)

Additional Information on Eligibility:

An institution is eligible to apply only if it is a nonprofit organization with 501(c)(3) tax-exempt status and has already received a confirmed booking for one of the NEH on the Road exhibitions through Mid-America Arts Alliance. Information on how to apply for bookings can be found at the Mid-America Arts Alliance Web site.

Agency Name

National Endowment for the Humanities

Description

These grants support ancillary public humanities programs to accompany NEH on the Road traveling exhibitions. Typical formats involve lectures, reading and discussion programs, film discussion programs, Chautauqua presentations by scholars, family programs, exhibition tours, or other appropriate formats for reaching the general public.

CFDA Number(s):	45.164 -- Promotion of the Humanities Public Programs
Cost Sharing or Matching Requirement:	No

Eligible Applicants

Others (see text field entitled "Additional Information on Eligibility" for clarification)

Additional Information on Eligibility:

Applications are invited from libraries (public, academic, special) and non-profit institutions or venues related to music or American history. (Examples include but are not limited to university departments, archives with an extensive collection in one of the areas of the program, museums, music-oriented institutes or societies, or performance venues.) Either a library or another nonprofit organization may be the lead applicant. All lead applicants must either have IRS 501(c)3 tax-exempt status, or be state or local governmental agencies. However, nonprofit organizations other than libraries must apply in partnership with a library, as grant guidelines require that the documentary DVD packages become part of a library's

circulating collection after the series ends. Individuals are not eligible to apply.

Agency Name

National Endowment for the Humanities

Description

America's Music: A Film History of Our Popular Music from Blues to Bluegrass to Broadway is a six-week public program featuring documentary film screenings and scholar-led discussions of twentieth-century American popular music. The six sessions focus on these uniquely American musical genres: blues and gospel, Broadway, jazz, bluegrass and country, rock n' roll, and mambo and hip hop. The project will provide DVDs of compelling documentary films, discussion guidelines, original essays by eminent scholars, extensive resource guides, and Web support. The project will offer participating organizations training in how to organize, promote, and run the series successfully. All libraries and nonprofit organizations selected to implement the public program will receive grants of \$2,500 for project expenses. Fifty organizations (libraries and other eligible nonprofits) will be selected to receive a grant to present this series of community programs on the history of American popular music. The grantee institutions are expected to offer the programs between January 1, 2013, and December 31, 2013.

National Science Foundation

General Funding Overview

The National Science Foundation funds research and education in most [fields of science and engineering](#). It does this through grants, and cooperative agreements to more than 2,000 colleges, universities, K-12 school systems, businesses, informal science organizations and other research organizations throughout the United States. The Foundation accounts for about one-fourth of federal support to academic institutions for basic research.

NSF receives approximately 40,000 proposals each year for research, education and training projects, of which approximately 11,000 are funded. In addition, the Foundation receives several thousand applications for graduate and postdoctoral fellowships.

The agency operates no laboratories itself but does support National Research Centers, user facilities, certain oceanographic vessels and Antarctic research stations. The Foundation also supports cooperative research between universities and industry, US participation in international scientific and engineering efforts, and educational activities at every academic level.

Small Business Administration

General Overview Finding Loans & Grants

Federal, state and local governments offer a wide range of financing programs to help small businesses start and grow their operations. These programs include low-interest loans, venture capital, and scientific and economic development grants.

Use SBA.gov's [Loans and Grants Search Tool](#) to get a list of financing programs for which you may qualify, or visit the resources below to learn more about small business financing programs.

To get to the main SBA.gov funding page [click here](#)

The screenshot shows the SBA.gov website interface. At the top, there is a search bar and social media links. Below the navigation tabs, the breadcrumb trail reads: Home > Starting & Managing a Business > Starting a Business > Loans, Grants & Funding > Finding Loans & Grants > Search for Business Loans, Grants and Financing. The main content area is titled "Search for Business Loans, Grants and Financing" and contains a form to fill out to find financing. The form includes a section for "My Interests" with checkboxes for "Thinking About Starting", "Writing a Business Plan", "Business Law & Regulations", and "Finding a Mentor". Below this is a "Join the Community!" button and a "Most Visited Articles In: Starting a Business" section with links to "Writing Effective Job Descriptions", "Is Entrepreneurship For You?", "10 Steps to Hiring Your First Employee", and "Providing Employee Benefits".

Department of Transportation

General Grant Program Overview

In 2011, DOT administered 14 grant programs totaling over \$417 million. In previous years, some funding for these grant programs was designated by Congress and the remainder was discretionary and awarded through a competitive process. In the FY11 budget passed in April, Congress directed that all funds were discretionary. This is expected to continue in the next fiscal year.

2011 Discretionary Grant Programs

In 2011, there were 14 grant programs totaling over \$417 million. These grants will support projects that work to improve safety, maintain a state of good repair, and make communities more livable.

In previous years, some funding for these grant programs was designated by Congress and the remainder was discretionary and awarded through a competitive process. In the FY11 budget passed in April, Congress directed that all funds were discretionary.

- [Summary of Fiscal Year 2011 Discretionary Grants](#)
- [Fiscal Year 2011 Discretionary Grants by State](#)

The FHWA administers discretionary programs through its various offices. These discretionary programs represent special funding categories where FHWA solicits for candidates and selects projects for funding based on applications received. Each program has its own eligibility and selection criteria that are established by law, by regulation, or administratively. Descriptions for each program, along with selection criteria, are available below.

U.S. Agency for International Development

General Overview Funding Opportunities

USAID has working relationships with thousands of American companies and hundreds of U.S.-based private voluntary organizations. For more information on our business and procurement opportunities, please visit our [Business](#) section.

For the general overview of funding opportunities: [click here](#)

You are here » [Home](#) » [Our Work](#) » [Global Partnerships](#) » [Faith Based and Community Initiatives](#) » [Funding Opportunities](#)

Opportunities for Funding

[American Schools and Hospitals Abroad \(ASHA\)](#)

The Office of American Schools and Hospitals Abroad (ASHA) provides grants to competitively selected private, non-profit universities and secondary schools, libraries, and medical centers abroad. Since the inception of the program, ASHA has assisted 237 institutions in over 70 countries, and facilitated the development and sustainment of superior libraries, schools, and medical centers, thus positively impacting the regions where these institutions are located.

[Child Survival and Health Grants Program](#)

The Child Survival and Health Grants Program (CSHGP) promotes a unique and productive partnership with U.S. private voluntary and non-profit organizations and their in-country partners. The program supports effective community-based maternal and child health programs that contribute to reducing infant, child, maternal and infectious disease-related mortality and morbidity in developing countries. PVOs and their local partners provide high quality, sustainable child survival and health interventions in a variety of program settings, from the smallest, most remote communities to large, district- wide programs, partnering with community groups and district and national health authorities.

[Denton Program \(Transportation\)](#)

The Denton Program allows private U.S. citizens and U.S. based non-governmental organizations to use space available on U.S. military cargo planes to transport humanitarian items such as clothing, food, medical and educational supplies, agricultural equipment and vehicles to countries in need. The program is jointly administered by USAID, the Department of State (DOS), and the Department of Defense (DoD). In FY 2003, over 300,000 pounds of humanitarian goods were sent to seven countries through the Denton program.

Since the Denton program is a space available program, it is impossible to predict when transportation will materialize. Therefore, no guarantees can be made regarding completion of a shipment. Although the program is active in most areas of the world, U.S. military engagement in certain places can have an impact on the space that becomes available.

[Development Grants Program \(DGP\)](#)

The Development Grants Program is a competitive small grants program, initiated in 2008, that provides opportunities for organizations that have limited or no experience managing direct USAID grants. DGP was designed to expand the number of direct partnerships and to build the capacity of organizations to better meet the needs of their constituents. Successful applicants receive awards for \$2 million or less to implement activities over a three-year period.

[Development Innovations Venture \(DIV\)](#)

USAID launched Development Innovation Ventures (DIV) as a way of producing development outcomes more effectively and cost-efficiently while managing risk and obtaining leverage. Through DIV, USAID seeks to identify and rigorously test promising projects with the potential to significantly (rather than incrementally) improve development outcomes, and help replicate and scale projects that are proven successful. DIV expects its most successful of investments will have an accelerated growth path to reach tens of millions of beneficiaries worldwide within 10 years.

[Food for Peace](#)

USAID, through funding provided by Public Law 480, Title II, makes commodity donations to Cooperating Sponsors (Private Voluntary Organizations, Cooperatives, and International Organization Agencies) to address the needs of food security in both 5-year development projects and emergency food assistance programs. Food for Peace provides assistance primarily through three types of programs:

Description

The Department of Veterans Affairs (VA) is announcing the availability of funds for supportive services grants under the Supportive Services for Veteran Families (SSVF) Program. This Notice contains information concerning the SSVF Program, initial and renewal supportive services grant application processes, and amount of funding available. For a Copy of the Application Packages: Download directly from the SSVF Program web page at: [http:// www.va.gov/HOMELESS/SSVF.asp](http://www.va.gov/HOMELESS/SSVF.asp). Questions should be referred to the SSVF Program Office via phone at (877) 737-0111 (this is a toll-free number) or via email at SSVF@va.gov. For detailed SSVF Program information and requirements, see the Final Rule published in the Federal Register (75 FR 68975) on November 10, 2010 (Final Rule), which is codified in 38 CFR Part 62.

REMINDERS!

The Small Business Innovative Research Program - SBIR Program

The Small Business Innovation Research (SBIR) program is a highly competitive program that encourages domestic small businesses to engage in Federal Research/Research and Development (R/R&D) that has the potential for commercialization. Through a competitive awards-based program, SBIR enables small businesses to explore their technological potential and provides the

incentive to profit from its commercialization. By including qualified small businesses in the nation's R&D arena, high-tech innovation is stimulated and the United States gains entrepreneurial spirit as it meets its specific research and development needs.

SBIR Mission and Program Goals

The mission of the SBIR program is to support scientific excellence and technological innovation through the investment of Federal research funds in critical American priorities to build a strong national economy.

The program's goals are four-fold:

- Stimulate technological innovation
- Meet Federal research and development needs.
- Foster and encourage participation in innovation and entrepreneurship by socially and economically disadvantaged persons.
- Increase private-sector commercialization of innovations derived from Federal research and development funding.

SBIR-Participating Agencies

Each year, Federal agencies with extramural research and development (R&D) budgets that exceed \$100 million are required to allocate 2.5 percent of their R&D budget to these programs. Currently, eleven Federal agencies participate in the program:

- [Department of Agriculture](#)
- Department of Commerce - [National Institute of Standards and Technology](#)
- Department of Commerce - [National Oceanic and Atmospheric Administration](#)
- [Department of Defense](#)
- [Department of Education](#)
- [Department of Energy](#)
- [Department of Health and Human Services](#)
- [Department of Homeland Security](#)
- [Department of Transportation](#)
- [Environmental Protection Agency](#)
- [National Aeronautics and Space Administration](#)
- [National Science Foundation](#)

Each agency administers its own individual program within guidelines established by Congress. These agencies designate R&D topics in their solicitations and accept proposals from small businesses. Awards are made on a competitive basis after proposal evaluation.

Three-Phase Program

The SBIR Program is structured in three phases:

Phase I. The objective of Phase I is to establish the technical merit, feasibility, and commercial potential of the proposed R/R&D efforts and to determine the quality of performance of the small business awardee organization prior to providing further Federal support in Phase II. SBIR Phase I awards normally do not exceed \$150,000 total costs for 6 months.

Phase II. The objective of Phase II is to continue the R/R&D efforts initiated in Phase I. Funding is based on the results achieved in Phase I and the scientific and technical merit and commercial potential of the project proposed in Phase II. Only Phase I awardees are eligible for a Phase II award. SBIR Phase II awards normally do not exceed \$1,000,000 total costs for 2 years.

Phase III. The objective of Phase III, where appropriate, is for the small business to pursue commercialization objectives resulting from the Phase I/II R/R&D activities. The SBIR program does not fund Phase III. Some Federal agencies, Phase III may involve follow-on non-SBIR funded R&D or production contracts for products, processes or services intended for use by the U.S. Government.
