Barrow Asks 12th District Residents to Share Health Care Opinions in Online Survey

Washington, D.C. – As the debate over health care reform begins, Congressman John Barrow (GA-12) is talking to folks on all sides of the issue to come up with the best possible solution to this enormous problem. Now he wants to hear from the folks whose opinions matter the most to him – the folks he represents. He’s asking residents of the 12th District to visit www.barrow.house.gov and fill out his health care survey.

“We can all agree that the current health care system is broken,” said Barrow. “We need to come together and decide how to fix it. I hope folks will take a few minutes to fill out the survey. I’m talking to a lot of the stakeholders on this issue, but there’s nothing that’s more important to me than the opinions of the folks I represent.”

Residents of the 12th District who would like to share their opinions on health care with Congressman Barrow should go to www.barrow.house.gov and click on “Congressman Barrow’s Health Care Survey.”
