

**February 12, 2013**

WASHINGTON – On Thursday, February 14, 2013, Baxley's Fram Renewables will testify before the House Committee on Energy and Commerce (E&C) Subcommittee on Commerce, Trade, and Manufacturing (CMT). The hearing, "Our Nation of Builders: Manufacturing in America," will examine America's manufacturing industry.

"I've seen the great work the folks at Fram Renewables are doing right here in the 12th District of Georgia," said Congressman Barrow. "With expansion plans underway, Fram Renewables is creating jobs and pumping life into the economy, both in and around Baxley. I look forward to welcoming them to Washington, and sharing their story with other Members of the Committee."

Congressman Barrow, a member of both the full E&C Committee and CMT Subcommittee, visited Fram Renewables during his 2012 Made in Georgia Tour, and requested their participation in this hearing. The company manufactures and exports wholesale wood pellet fuel to utility companies globally.
